

# HIBISCUS PARTNER TRANSLATION SERVICE

## Overview

We are pleased to be able to present to you our translation service proposal. We specialize in translating cryptocurrency related documents as well as website optimization to achieve localization. We focus on providing accurate and authentic translation to allow our clients to be able to deliver their values and contents without border. We guarantee our guest with such result by promising our 3 core operation value:

1. We do not use translation programs. All translating work is done by experienced operators.
2. We take time to understand the document thoroughly before the translation procedure to minimize the risk of mistranslation.
3. We do not procrastinate nor ask for extension of deadline.

## Ending remarks

We believe in the potential of the blockchain technology to benefit and revolutionize the humankind in all. However, to achieve that level of maturity, importance of scaling exposure and utilization of such technology is undeniable. Hence, Hibiscus Partner have started providing translation service to participate in such revolution. We started recently, however, already received works from ICO projects and completed the tasks. We wish your company can allow us to help and participate. Thank you.
